

# Jambo - Welcome To Our African Lands

To our esteemed guests,

We start our journey together by first welcoming you home by saying "Karibu Sana Nyumbani" and you can trust AfricanMecca's experience and integrity to deliver an unforgettable and superb event of your lifetime as we have done for others over the years. If you prefer independent "hands on" research on your East African program, we recommend you also visit our interactive brochure at [www.africanmeccasafaris.com](http://www.africanmeccasafaris.com) and peruse through detailed destination and program information along with the hundreds of pictures and videos photographed and filmed around East Africa.

Our homeland of East Africa is a superb destination offering experiences far spectacular than anything one has encountered collectively in their travels. It is a must visit region of the world to which nature has favored enormously by: gifting abundant species of terrestrial and aquatic life including the big 5 on land and below the Indian Oceans waters; air brushing the landscapes with a collage of mountains, craters, valleys and oceans; and breathing life into beautiful personalities which make up over 100 diverse African cultural communities that coexist and maintain their admirable ways of life on our inlands and islands.

To narrate AfricanMecca's participation in the East Africa tourism industry, we understand the intricate "insiders view" of the offerings that awe our guests, and the ability to make these attractions available to them has taken the most experienced East African team in the industry. Along with our team's ground operations experience, AfricanMecca delivers complete tourism services for Kenya, Tanzania and Zanzibar. With our destination offices located in North America and Europe, all headed by natives of East Africa, further enables our guests to receive convenient and accurate planning and reservation assistance when they need it. We look forward to your African experience with us.

From The AfricanMecca Team
